Manufacturer Provided Description

The Catalina 42 MarkII has earned an international reputation as the leader in her class. Design, cruising performance, and comfort, all make the Catalina 42 the first choice of sailors worldwide. The hull of the 42 MkII is high volume, and easily driven, with a fine entry, firm midship section, and smooth run aft terminating in a modified reverse transom with an uncommonly spacious and functional boarding platform. Each of the four different cabin arrangements feature varnished teak joinery, ash hull side paneling, excellent light and ventilation. The Three Cabin Pullman model offers the traditional mid-ship placement of the owners stateroom, Twin aft Cabins and spacious head forward with stall shower.
